

MINNESOTA  
Nursing Home Report Card

September 1, 2017

Dear Resident:

The Minnesota Department of Health and the Department of Human Services would like to know what you think of this nursing home. We publish a Nursing Home Report Card website which people can use to help them choose a nursing home. We include the opinions of people who live in nursing homes because you “know best” about the quality of life and services here.

The interviewer visiting you today will ask you some questions about your nursing home. The interview will take about 20 minutes of your time. Only the interviewer will know your answers to the questions; no one else will know what you said. We will combine your answers with the answers from other residents here. We will share these combined answers on the Nursing Home Report Card.

We hope you will agree to help us by sharing your opinions. They will help others make the nursing home choice that is right for them. If you have any questions about the Nursing Home Report Card, please call Teresa Lewis at the Minnesota Department of Human Services at 1-651-431-4208. Thank you for your help in letting others know about your nursing home.

Sincerely,

Nancy Omondi, Director  
Health Regulation Division  
Minnesota Department of Health  
PO Box 64900  
St. Paul, MN 55164-0900

Valerie Cooke, Director  
Nursing Facility Rates and Policy  
Minnesota Department of Human Services  
PO Box 64973  
St. Paul, MN 55164-0973
